EXPERIENCE

AI Planet formerly DPhi | Software Engineer

October 2021 - Present

- Founding engineer and team lead at AI Planet, a community of over 300,000 AI enthusiasts built on top of its open, self-paced, free learning platform, and a marketplace for community-backed, hosted AI models.
- Led the design and development of LLM deployment pipelines for inferencing and fine-tuning, achieving a 10% improvement in model inferencing API performance and optimized cloud infrastructure to reduce the cloud cost further by 12%.
- Led the development of custom AI solutions for industry giants (Qualcomm, Cisco) and spearheaded a multi-cloud LLM fine-tuning solution, achieving efficient resource utilization across clouds.
- Products built by me - aiplanet.com/courses, skillspace.ai, app.aimarketplace.co

AI Planet formerly DPhi | Software Engineer - Intern

January 2021 - September 2021

- Developed scalable REST APIs and database schemas for the community LMS platform, directly reporting to the CTO, which contributed to user growth and seamless learning experiences.
- Products built by me - aiplanet.com/courses, skillspace.ai,

OPENSOURCE CONTRIBUTIONS

KServe | Python, Kubernetes

- Added support for loading kubernetes configs using a dictionary in its Python SDK.
- Contribution - <https://github.com/kserve/kserve/pull/2924>

DjangoPackages | Python, Django, Django Rest Framework

- Enhanced package versatility by implementing dual licensing capabilities and advancing licensing functionalities.
- Contribution - <https://github.com/djangopackages/djangopackages/>

TECHNICAL SKILLS

Programming Languages: Python, Golang, Javascript

Database(s): MySQL, PostgreSQL

Frameworks/Libraries: Django, Django Rest Framework, FastAPI, ReactJS

Containerization and Orchestration: Docker, Kubernetes, ArgoCD

Cloud services: AWS, GCP

EDUCATION

Bachelor's Degree

Bangalore University, Bangalore, India

SGPA - 7.5

August 2018 – September 2022

Pre-University

The National PU College, Jayanagar, Bangalore, India

Percentage - 70

August 2016 – May 2018
